M10

sidiz

A CHAIR
TRANSFORMING
YOUR LIFE
THE CHAIR
DREAMING OF
MORE THAN A CHAIR

Sidiz, a chair brand, aspires to support your passionate life on chairs that define your body and space, through which you can immerse in life as a HOMO SEDENS (Seating Human). Professionalism of chair designers and engineers at the Sidiz R&D center has been building up a solid foundation to make this sincere aspiration into the promise of good and affordable chairs. Combined with cutting-edge ergonomic technologies supporting human movements to the maximum level of comfort, our smart and creative designs imbue a stronger value to your life. Determined to manufacture only the highest quality products, our uncompromising spirit of craftsmanship manifests itself in the final touches on details. Sidiz' passion for chairs your body and your lifestyle now extends towards the universal availability for global customer seeking for the higher quality in life.

M10, naturally moving as my body moves

The prejudice of "Frame chair is hard" will disappear the moment you sit on M10. M10 is the world's first chair that embodies movements like synchronized tilting which is applied to high class task chair without additional mechanism. Fluid movement of M10 provides coziness instead of tiredness even when sit for a long time.

- Polycarbonate glides
- Tablet on right side

- Basic type

M101U Basic & standard features

- Self-adjusting tilting function
- Stackable steel frame
- Polycarbonate glides

Attention to details

1. Self-adjusting tilting function

Although it is a frame chair, M10 has a structure that enables backrest to naturally move along with the user's movement without additional mechanism. Through this, it implements function like synchronized tilting of high class task chair.

2. Design of curve and straight lines

Ergonomic curve line and simple straight line come together to give impression of refined and androgynous appeal. This design adds sense to place where many people use together such as classroom or conference room.

3. Stacking for space efficiency

Regardless of armrest, stacking made it is easy to move and be arranged, improving space efficiency. * Tablet type is not stackable.

4. Attachable Rack

An installable rack under the seat accommodates bags or books and still retains tilting function.

* All features are subject to change.
